NOTE:

- 1. Do not mark any Code/Information in Column-A, it will be indorsed by the University.**
- 2. T/P** in Column-E stands for **Theory/Practical**.
- 3. CIE** in Column-F stands for **‘Continuous Internal Evaluation’** and depicts the maximum internal marks. Respective examination will be conducted by subject teacher.
- 4. ETE** in Column-G stands for **‘External Evaluation’** and depicts the maximum external marks. Respective Examination will be conducted by the University.
- Column-B defines the nature of course/paper. The word **CORE** herein stands for **Compulsory Subject Paper**.
- Column-D depicts the credits assigned for the corresponding course/paper.
- First Elective:** It will be a Subject Elective. Students may select one of the two subject papers under this category.
- Second Elective:** It will designate a Practical Paper or equivalently a Field Visit or Project Presentation. In case of Field Visit, student is required to submit a detailed report of the visit for the purpose of evaluation. The report should include the observational features and benefits of the visit. In case of Project Presentation, the student may be assigned to go for a survey/practical or theoretical project/assignment or seminar with presentation.
- Third Elective:** It will be a Subject Elective. Students may select one of the two subject papers under this category.
- Fourth Elective:** It will accommodate a practical paper or Industrial Training or Project Presentation. In case of Industrial Training, student may be allowed for the summer training and is required to submit a detailed training report including training certificate for the evaluation.
- Fifth Elective:** It will be a Subject Elective. Students may select one of the two subject papers under this category.
- Sixth Elective:** It will be a Practical Paper or equivalently a Project Presentation based on Survey/ Seminar/ Assignment. In case of Project Presentation, student has to submit an exhaustive report on respective topic and to face an open presentation for the evaluation.
- Seventh Elective:** It will be a Generic Elective. The student may study or receive training of the any subject of his interest (depends on the availability in his institution of enrollment).
- Master Research Project:** It will be a Major Research Project or equivalently a research-oriented Dissertation on the allotted topic. The student will have to complete his/her research project under any supervisor. The supervisor and the topic for research project shall be allotted in second semester. The student straight away will be awarded 05 credits if he publishes a research paper on the topic of Research Project or Dissertation.

Semester - I
Paper - I (core)

Philosophical Bases of Education : Western Philosophies

Course Objectives-

To enable the students to develop an understanding about the :

1. Contribution of Philosophy to the field of education.
2. Impact of Western Philosophies on Indian Education.
3. Contribution of a few of the Great Western Thinkers.
4. Nature and success of knowledge getting process.

Course Content

Unit - I

Meaning, Nature and Scope of Education and Philosophy;

Relationship between Education & Philosophy.

Unit-II

Western Philosophies : Major schools.

- (I)
 - i. Naturalism
 - ii. Idealism
 - iii. Pragmatism
 - iv. Realism
- (II) Modern concepts of Philosophy
 - i. Logical positivism
 - ii. Existentialism
 - iii. Marxism

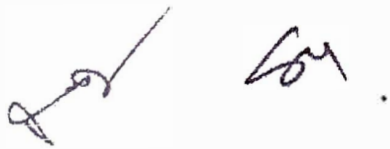

Their educational implications with special reference to epistemology axiology and the process of education.

Unit-III

Great Western Education

- i. Plato
- ii. Rousseau
- iii. John dewey

Semester - I
Paper - II (core)

Methodology of Educational Research

Objectives-

The study of this paper will enable the students to:

1. Know the meaning and purpose of research.
2. Understand the research problem and its various phases.
3. Know different methods used in educational research.

Course Content

Unit - I

Nature and need of educational research. Qualitative and Quantitative research.

Unit-II

Selection and formulation of research problem, guiding principles of problem selection. Review of related literature and formulation of hypothesis.

Unit-III

Population and sampling. Types of sampling-simple random sampling, stratified random sampling, cluster sampling, systematic sampling, purposive sampling, snowball sampling.

Unit-IV

Method of educational research, Historical, Descriptive and Experimental research.

Books Recommended

Shri Vinod Pustak Mandir, Agra

Semester - I

⑪

Paper - V (second elective)

Practical / Presentation

Choose Any One -

Paper - V (A)

- (i) Review of any two books and make a comprehensive report - and present it (one report).
- (ii) Write and present a research paper

Paper - V (B)

- (i) Educational tour, and its detailed documentation and presentation

Measurement, Evaluation and Statistics

Objectives -

- * Understand the meaning & concept of measurement and evaluation
- * To develop understanding about various tests.
- * Familiarity with different modes of evaluation
- * To develop understanding of techniques of measurement & evaluation.
- * To develop understanding for the use of statistics in Education

Content -

Unit - I

Measurement and Evaluation - concept, definition, need and relationship; purpose of evaluation; levels of measurement (nominal, ordinal, interval, ratio); Internal, external and continuous evaluation; Errors of measurement; Innovation in measurement and evaluation (semester system, scaling of marks, grading system)

Unit - II

Tools of measurement and evaluation (observation, test, interview, schedule, questionnaire, rating scale, projective techniques, sociometry); characteristics of good measuring tools. Objectivity; Test reliability; Test validity

Unit - III

Meaning and definition of statistics, frequency distribution; measures of central tendency - mean, median & mode; Graphical representation of data (polygon, bar diagram, histogram, frequency curve);

Unit - IV

Measures of variability - range, percentile, quartile, standard deviation - meaning and computation; Correlation meaning and use, Spearman's rank difference correlation, standard scores (Z-score, T scores, C-score); T-test

Books recommended

- * Asthana, Bipin; Measurement, evaluation and assessment in Education, Agrawal Publication (2016)
- * Gupta, S.P. Modern measurement and evaluation (with Statistics), Sharada Pustak Bhawan, Allahabad (2003)
- * Pandey, K.P; Shikshik mapan avam mulyankan, Vishwavidya Daye Prakashan, Varanasi

Semester - III
Paper - II (Core)
FOUNDATION OF TECHNOLOGY

Course Objectives-

To enable the students to;

- To enable the student to understand about the meaning, nature and scope and significance of ET, and its important components in terms of Hardware and Software.
- To help the students to distinguish between communication and instruction so that they can develop and design a sound instructional system.
- To acquaint students with levels, strategies and models of teaching for future improvement.
- To enable the students to understand about the importance of programmed instructions and researches in E.T.
- To acquaint students with emerging trends in ET along with the resource centres of ET.

Unit - I

- Concept of Educational Technology
- Meaning, Nature, Scope and significance of ET.
- Components of ET: System Approach, Software, hardware.
- Educational Technology, Instructional Technology, Teaching Technology, Behaviour Technology.

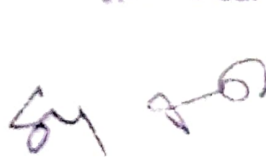

Unit-II

- Concept, Nature, Process, Components, Types & Theories of Classroom Communication
- Mass media approach in Educational Technology.

Unit-III

- Modification of Teaching Behaviour.
- Micro teaching, Flanders's Interaction Analysis, Simulation.
- Models of Teaching.

Unit-IV

- Programmed instruction (linear/branching model) — Origin and types linear and branching.
 - Teaching machines
 - Computer Assisted Instruction.
- 

- Emerging trends in Educational Technology, Problems of New Technologies..
- Resource Centres for Educational Technology, CIET, UGC, IGNOU, NOS, State ET Cells, etc. — their activity for the improvement of teaching learning.

Semester - III
Paper - III (Core)
EDUCATIONAL GUIDANCE AND COUNSELLING

Course Objectives-

To enable the students to;

- To help student understand concept, need and view point of guidance.
- To help student understand principles and problem of different types of guidance.
- To help student understand concept, need and guidance for the children with special needs.
- To help student understand the concept and process of counseling.
- To acquaint the student about the aims and principles of guidance programme.
- To develop in students an understanding of various procedures of organizing various Guidance services.

Unit - I

- Concept, Principles and Nature of Guidance Programme.
- Needs scope and significance of guidance.
- Types of guidance (Educational, vocational, personal and social)
- Role of the teacher in guidance.
- Agencies of guidance — National & State level.

Unit-II

- Vocational Guidance; concept and Nature of Vocational Guidance.
- Nature of work.
- Career development — Super's Theory about guidance.
- Approaches to career guidance, Vocationalisation of secondary education and career development.

Unit-III

- Organization of a Guidance Programme
 - a) Principles of organization.
 - b) Various types of services — Counselling.
- Counselling Process.
- Concept, nature, principles of counselling.
- Counselling approaches — directive, non — directive.
- Group counselling vs. individual counselling, Counselling for adjustment.
- Characteristics of good counselling.
- c) Group guidance, individual inventory service and information orientation service, placement service and follow up service.
- d) Evaluation of guidance programme.

Unit-IV

Guidance of Children with special needs

- a) Problems and needs,
- b) Guidance of the gifted and creative students.
- c) Guidance of under — achiever and first generation learners.
- d) Role of the teacher in helping children with special needs.

Paper - IV (Elective)

ENVIRONMENTAL EDUCATION

Course Objectives-

- To make student teachers understand about the concept, importance scope and aims of environmental education.
- To acquaint the student teachers with possible environmental hazards enabling them to combat with the negative effects of the Programmes of environmental erosion and pollution at various stages of education.
- To orient student teachers with various components of environment for preparing a curriculum for environmental education.
- To enable the student teachers to develop various methods and strategies for realizing the objectives of environmental education.
- To enable the student teachers to understand about various projects in the area of Environmental studies in different countries.

Unit - I

- Introduction.
- Concept, Importance and Scope.
- Aims and Objectives.
- Guiding Principles and foundations.
- Relationship between man and Environment.
- Ecological and Psychological Perspective.

Unit-II

- Concept of environment and ecosystem.
- Natural System earth and biosphere, abiotic and biotic components.
- Natural resources, abiotic resources.
- Human system — Human being as part of environment, human adaptations to environment, population and its effect on environmental resources.
- Technological system — industrial growth, scientific and technological inventions and their impact on the environmental system.
- Environment and Sustainable Development.

Unit-III

- Environmental Hazards.
- Environmental pollution, physical, air, water, noise, chemical.
- Extinction of flora and fauna, deforestation, soil erosion, global warming.
- Need and efforts for conservation, preservation and protection of rich environmental heritagd.

Unit-IV

- Features of curriculum for environmental education.
- Special nature of curriculum on environmental education.
- Methods and approaches of environmental education.
- Strategies and approaches, treating environment education as a separate subject, topical units, integration and interdisciplinary approaches.
- Method — Discussion, Seminar, Workshop, Dialogue, Problem Solving, Field Surveys, Projects and Exhibition.
- Role of Media, Print, Films and TV.
- Programme of environmental education for primary, secondary and higher education institutions.
